

DELHI DEVELOPMENT AUTHORITY  
(QUALITY ASSURANCE CELL)

CIRCULAR No. 210

13/12/2012

It has been noticed that field engineers are invariably getting Concrete Mix Design and Job Mix Formula of bitumen concrete from the private laboratories empanelled vide this office Circular No. 203. As per the contents of the Circular the empanelment of these laboratories is only for the testing of various materials, required to be conducted as per mandatory requirement of relevant specifications/BIS standards. Whereas, concrete mix design is a specialized job and needs to be done by some Consultancy Organization or Research Institute preferably the Government Establishments such as IIT, NCCBM, CRRI or Delhi Technical University etc.

It is, therefore, enjoined upon all the field engineers that Concrete Mix Design/Job Mix Formula be got designed from the specialized organizations as enumerated above. The provision in the agreements be made accordingly. These instructions shall be followed meticulously.
